

MD-124B

# 12"X10" -10"X10" - 14"X12" CADET SERIES MARCHING TOMS

When the short , dry attack of marching toms is needed to blast tone over an entire line of blaring brass and woodwinds, Cadet Series Trio and Quad sets certainly fit the bill. Their solid hardwood construction allows high tension tuning without warping or splitting under pressure, and reinforced bottoms protect the gear from deterioration due to harsh conditions. Each set comes with our exclusive lightweight aluminum carriers for comfort and solid feel on the field. The carrier allows for each drum's position to be individually adjustable.
