## ISOLATED POWER SUPPLY (10 OUT)

NIP-Z10

ZEUS is a reliable, extreme-low-noise, light-weight, universal power, high current, all-isolated power supply conceived by NUX to provide musicians with the ultimate solution for **hum-free** pedal chains.

ZEUS provides **10 high current isolated DC power**. It equips 10 isolated switching power transformers to offer clean and stable source for your pedals. As a modern musician, guitarists like digital post effects, so ZEUS comes with **3 adjustable high current outputs** (9v/500ma | 12v/300ma | 18v/200ma), and **1 tweakable high current output** (6v~9v~12v).

Zeus is able to deliver substantially more current while handling a much wider range of input voltages, more efficient than linear power supplies. For working musicians, Zeus has **USB port** for your mobile device charging. Zeus' universal AC power in can let you work all the world without any AC mistake. It's reliable and durable to power your pedals.

# ISOLATED POWER SUPPLY (10 OUT)

## HIGHLIGHTS

### TRANSIENT CURRENTS (POWERFUL)

The current of an effect pedal (especially power-hungry modern DSP effects) is different at the moment of power-on and normal operation. The transient current often exceeds the normal operating current by 1 to 2 times. Zeus can effectively provide more than 2 times the instantaneous start-up current.

NOTE:

1-6CH: >1100mA

7-10CH: >600mA

USB 5V: >2.1A

### TWEAKABLE DIAL CONTROLS TO ADJUST VARIABLE VOLTAGE: 6V~12V

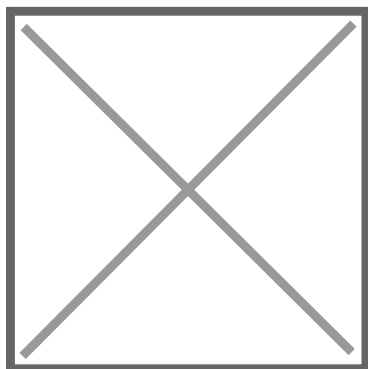

For the picky musicians, they care about the tone, especially for some Ge Fuzz pedals, Phaser, BBD Chorus, and Overdrive pedals. You have to adjust the voltage carefully to get the best sound and dynamic: and with ZEUS you can do it easily.

NIP-Z10

## ISOLATED POWER SUPPLY (10 OUT)

---

### OPTICAL NEGATIVE FEEDBACK CONTROL: SAY FAREWELL TO NOISES

Why do musicians need all isolated power supply? The ground noise is annoying, and the best way to solve it is individually isolated power. Zeus' two stages of isolation topology can eliminate ground loop and AC line noise issues completely. Just plug it, and you are good to go!

---

### UNIVERSAL AC POWER (100V~240V WORLD TOUR READY)

As a working musician's tool, you don't need to worry about the AC voltage, just choose the specific IEC power chord and plug, plug it, and you are good to go.

### UL CERTIFICATION (SAFETY)

ZEUS isolated power supply is not only a professional musician's tool, it's also a GREEN power.

NIP-Z10

# ISOLATED POWER SUPPLY (10 OUT)

## PRODUCT DETAILS

### KEY FEATURES

10 isolated switching power transformers

Tweakable dial controls to adjust variable voltage: 6V~12V

Optical Negative Feedback Control for zero-hum performances: eliminate ground loop and AC line noises

Universal AC Power (100V~240V World Tour Ready)

Self-Regulated Output (Ultra Low Impedance): great dynamic preserved

UL Certification: 100% 'green' power

Wide range of DC cables included

### SPECIFICATIONS

|                       |                                                                                |
|-----------------------|--------------------------------------------------------------------------------|
| <b>AC Power Input</b> | 100~240V AC 50/60 Hz                                                           |
| <b>DC Outputs</b>     | 9V / 500mA*6, 9V/12V/18V adjustable*3, 6V~12V tweakable*1, USB 5V/1.5A for Pad |
| <b>Dimensions</b>     | 195mmx101mmx42mm                                                               |
| <b>Weight</b>         | 658 g                                                                          |
