

DM-7X

ALL MESH DIGITAL DRUMKIT

NUX collaborates with REMO, the world-renowned drumhead brand, and equips DM -7X with all excellent REMO mesh heads. Enhanced by the latest Dual-Triggering technology (head and rim), DM-7X's 10" NDP-10 snare and the 8" NDP-8 toms provide accurate triggering and large strike area, together with authentic acoustic feel.

Meanwhile, with the advanced velocity-sensitive drum pads and cymbals, you can set parameters for your drum triggers to ensure the most accurate and natural response. DM-7X also features 30 precisely-sampled studio kits and a customizable sound library, which delivers the most realistic and expressive drum sounds.

In addition, practice mode offers recording and 5 types of coach functions, and various effects are available to further expand the playability.
