DJ-TANK - WHITE

The Zomo DJ-Tank is the ideal extension for the Zomo DJ-Trolley, but it also cuts a great figure on its own. It offers space for about 70 LPs and 24 CDs in the included Zomo CD Small, which fits in the front outside pocket. The two side pockets can hold headphones, systems and other accessories. The additional nets on the side pockets can also be used to store mobile phones, tickets and the like. In combination with the Zomo DJ-Trolley, on which the Zomo DJ-Tank can be stored perfectly and safely, even 140 LPs and 48 CDs can be rolled comfortably to the set. A comfortable carrying handle, a length adjustable shoulder strap fastened with Duraflex buckles and a padlock are of course part of the basic equipment.
