PRO STAND BASEPLATE - BLACK

The Zomo Pro Stand Base Plate is the ideal addition to all variants of the Zomo Pro Stand, if it is not desired that the stand is permanently screwed to the DJ Deck. This is a very practical alternative, especially for mobile use, with which a very high stability can be achieved without great effort. The practical carrying handle makes it easy to transport the very solid plate. The high-quality powder coating is resistant to scratches and other negative environmental influences. suitable for all ZOMO Pro stands
