BB SOPRANO SAX SERIE VERSA LIGATURE (EBANITE/ABS MOUTHPIECE)

It all started in 1974, with the original Rovner Dark, an innovative design that changed the way woodwind players thought about ligatures. Today's Next Generation Rovner ligatures represent the next wave of Rovner innovation, featuring patented Mass-Loaded Technology™ and unique Resonating Ribs™. Rovner Products are technologically advanced to help you produce nothing less than musical magic! The variable Versa is the high-performance predecessor to the Next Generation Versa-X. Jazz and classical players alike appreciate the Versa's ability to personalize their sound. It is ideal for the player seeking to fine-tune the ligature's responsiveness and tonal qualities. Of course, the Rovner ligature you choose will be based on your own set-up, playing style and preferred sound.

V-1RVS

PRODUCT DETAILS

KEY FEATURES
