KEY FEATURES

LUBRI COAT: With a "Solid Luburication Coat", regular oil has been eliminated keeping the lubrication where it is needed for the life of the tuning machine heads. it is now enhanced with a GOTOH original anti-transformable lubrication oil and this reduces the friction between the gears resulting an ultra smooth feel minimal back lash and unrivalled tuning stability.

GOTOH MAGNUM LOCK is a self locking system by string tension and is a great asset when keeping vibrato-equipped guitars in tune without any string breaking and slipping off.
