BATTLE BRIDGE B-3

The Zomo Battle Bridge B-3 is the ideal addition for the Zomo case T-1 to intergrate your 12" battle mixer. The bridge is easily mounted into the Zomo T-1 turntable case so that it can be fitted quickly and securely between the two turntables. Thereby are both variants (battle style or regular style) supported and the turntables can be set-up horizontally as well as vertically. Both the control elements at the front, as well as the ports at the back are exposed and are in no way affected in there use. The setup of the dj-set is fast, simple and space-saving! The distance between vinyl and fader will be minimised. Sheer genius and totally cool! It's Zomo!
