BB BARITONE SAX SERIE MK III LIGATURE (METAL MOUTHPIECE)

It all started in 1974, with the original Rovner Dark, an innovative design that changed the way woodwind players thought about ligatures. Today's Next Generation Rovner ligatures represent the next wave of Rovner innovation, featuring patented Mass-Loaded Technology™ and unique Resonating Ribs™. Rovner Products are technologically advanced to help you produce nothing less than musical magic! A variation on the original Dark, the robust MK III is enjoyed by jazz and classical players alike. Combining the best properties of the Dark and the Light, the MK III became the first "premium" Rovner ligature, delivering both a dark sound and enhanced facility. Historically it has held a great appeal to band directors looking for a bit of a boost for their woodwinds. Of course, the Rovner ligature you choose will be based on your own set-up, playing style and preferred sound.
