PRE-WIRED STRAT® PICKGUARD, QUADRA TAP™/ULTRA NOISELESS™ HSS, BLACK 11 HOLE PG

0992352506

Transform the voice of your Stratocaster® with a genuine Fender Pre-Wired Pickguard Assembly. Crafted with premium components in the same factory as our iconic guitars, this complete drop-in solution delivers authentic Fender® tone with hassle-free installation. No complicated wiring required - just remove your existing pickguard, connect two wires, mount the new assembly, and unlock a whole new voice for your guitar in minutes. It's the fastest way to upgrade your Strat® with our time-tested electronics and craftsmanship.

Equipped with the Quadra Tap™ 1 Humbucker and 70th Anniversary Ultra Noiseless™ Strat® pickups this loaded pickguard delivers an incredibly versatile range of HSS tones. The Ultra Noiseless single-coil pickups offer pristine vintage Fender tones without hum. In conjunction with the four distinct voices of the Quadra Tap™ 1 humbucker, this calibrated set is supremely versatile and offers dynamic Fender tone that is second to none. The volume knob's S-1™ switch splits the Quadra Tap™ humbucker into a powerful single-coil, while the S-1™ switch on tone 1 knob activates the hot voicing in both humbucking and split modes. In addition, a treble bleed circuit maintains your highs at any volume.

Powered by an alnico 2 bar magnet, the passive Quadra Tap™ Humbucker is a tone-shaping powerhouse. Experience four distinct voices that span from vintage-inspired warmth to scorching hot output in both single coil and humbucker settings.
