AERO ACRYLIC PICKS, 6-COUNT, 1.25MM

Blending a timeless tortoiseshell design with the bright, articulate tone of acrylic thermoplastic, the Aero Acrylic Picks deliver enhanced clarity with a classic feel. Available in 1.25mm, 1.5mm, and 2.0mm gauges, each pick features CNC-precision machined beveled edges and a tumbled finish for smoother, faster, and more controlled playing. The durable construction improves clarity and reduces pick noise, delivering a cleaner, more expressive sound.
