ATL BS050

SUPPORT BASE FOR ATLAS LED WALL SUPPORT SYSTEMS (F70ATL050)

The screen support base is designed to enable floor-mounted LED screen installations. It features two adjustable front spindles and one rear spindle, ensuring precise leveling of the LED screen. The 29 cm ladder truss is securely attached to the base using two CBC50PDC double-cone connectors, which are included with the truss.

ATL BS050

PRODUCT DETAILS
