

TU-Multi 600Wh

"MULTI BRACKET" SUPPORT, LENGTH: 600MM, WHITE

Multi Bracket can be used on its own for ceiling mounting, or in conjunction with an extension bracket for wall mounting. Additionally, it can be used with a mounting board to stack on top of compatible Void subwoofers. Compatible with speakers: Air Motion and Tri Motion. It can also be mounted on top of these subwoofers if needed: Stasys XV2 / Xair, Stasys 218, Nexus Q / X / XL, Arcline 218.
