12" COMPACT INSTALLATION SUBWOOFER VOID VENU BASS (BLACK)

The **Venu Bass** is a compact subwoofer featuring a single 12" driver, designed to meet the demands of professional installations. The Venu series was developed in response to requests from renowned installers and engineers worldwide, aiming to deliver high performance and reliability. This model incorporates a high-excursion transducer with an extremely rigid structure, ensuring accurate low-frequency reproduction. It is equipped with **Phoenix connectors** for quick and secure connections, while the recessed rear panel allows flush wall placement. Its weather-resistant grille and accessories make it ideal for exposed environments such as beach bars or locations subject to corrosive conditions. The cabinet, crafted entirely from 15 mm laminated birch plywood, guarantees strength and long-lasting durability.
