K-WALL2

K-GEAR WALL MOUNT BRACKET (BLACK)

K-WALL2 is a **sturdy and flexible wall mount bracket**, designed to provide a secure and adjustable installation for a wide range of K-array loudspeakers, including **Kobra, Python, Kayman, Dragon, Domino, Rumble, Pinnacle**, and **Axle**. Thanks to its **ball and socket joint**, it allows for precise **vertical and horizontal adjustments**, ensuring optimal positioning in any installation environment.

It comes in **standard black finish**, and is also available in **white (K-WALL2W)** and **custom colors (K-WALL2X)** to seamlessly blend with any architectural or interior design.
