BEATBUDDY 2

STOMP BOX DRUM MACHINE

BeatBuddy is the award-winning pedal for musicians to add **live, responsive drums to their playing.** More than 150,000 players around the world use it to practice, write, and perform with a drummer that never misses a cue. With a simple foot tap, you can add fills, transitions, song part changes, drum breaks, accent hits, intros/outros, double/half time, cowbell, and more — **all in real time**. You can even navigate set lists hands-free.

Now, **BeatBuddy 2** makes the experience **even more powerful,** bringing dynamic **expression pedal control** of tempo/velocity/volume, limitless commands with **SuperSwitch**, and **Autopilot** — smart automation of the beat that lets you step in with improvisation whenever inspiration strikes.

It comes pre-loaded with **13 ultra-realistic drum kits** and over **230 songs** across **23 genres,** with additional room for **320 drum sets** and **3.2 million songs** (download or create your own).

The **new HD kits**, 4x larger than the originals, deliver **every nuance of real drums**, and the **intuitive visual display of the beat** makes it easy to stay locked in on stage.

BeatBuddy 2 is the ultimate drummer companion for any musician, now rebuilt with more **realism**, **intelligence**, and **control** than ever before.

STOMP BOX DRUM MACHINE

HIGHLIGHTS

TONES OF IMPROVEMENTS

HD Drum Sets: Larger, ultra-realistic drum sets with 4x the sound capacity and enhanced granularity and depth.

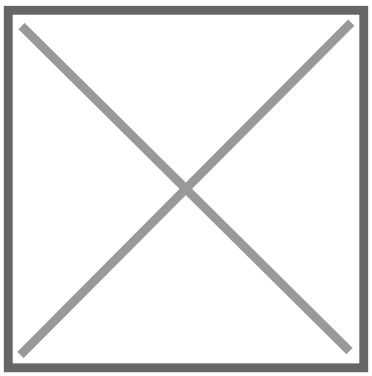

Autopilot: Intelligent song automation that controls part length, fill timing, song endings, and more... so you can focus on playing!

Enhanced Display & Interface: Instantly know where you are in a song with a larger screen and improved UX.

SuperSwitch and EXP pedal itegration: You can now control everything!

SEE MORE, DO MORE

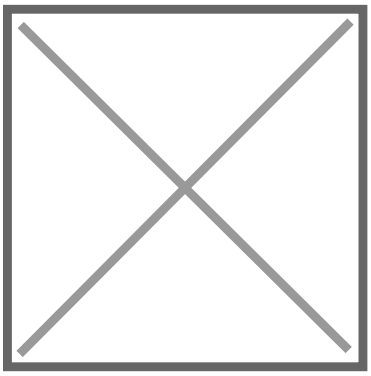

BeatBuddy 2 features a larger, higher resolution screen and an improved interface that makes it easier to find songs, adjust settings, and stay locked in during a set. Whether you’re switching parts mid-song or tweaking tempo on the fly, everything's sleeker, more intuitive, and built to keep up with you.

UNLOCK MULTI-BUTTON PRECISION CONTROL WITH THE SUPERSWITCH

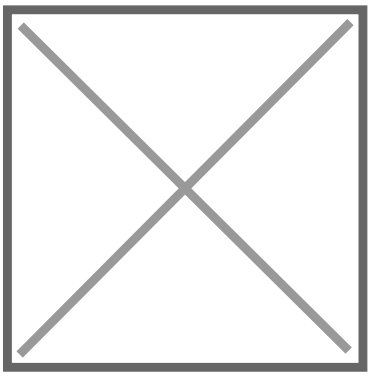

Most multi-button controllers only let you trigger one command at a time. The SuperSwitch changes everything. Using a proprietary signal protocol, the SuperSwitch gives you simultaneous, synchronized control over multiple functions—pause and trigger an accent hit, switch parts and start a fill, all without missing a beat.

You can jump directly to any song part, trigger half-time or double-time tempo, use multiple accent hits and navigate entire setlists hands free with ease.

SEAMLESSLY INTEGRATE WITH YOUR AEROS LOOPER

The Aeros looper and BeatBuddy 2 feature a plug and play integration, easily syncing song start, transitions and song stop via MIDI.

FEEL THE DYNAMICS WITH EXPRESSION PEDAL SUPPORT

BeatBuddy 2 lets you connect any standard expression pedal to shape your sound in real time. With hands free control of tempo, volume and velocity, you can ease into a groove or build toward an explosive fill—just like a real drummer. It’s a new level of control that makes your beats feel more human, more dynamic, and more alive.
