HFL500-3.9-Mag

HANGING BAR FOR MAGIC SERIES P3.91 500MM LED PANEL

500mm heavy duty hanging bar for **Magic Series** LED panels. Engineered for strength and precision, it provides secure overhead support for modular LED cabinets and can also be used as a ground support structure with the addition of compatible feet. The bar features an **M16 hanging ring** and **M16 ground feet mounts**, allowing it to transition seamlessly between suspended and floor-mounted configurations. Its precisely engineered mounting points, including **M6 and M10 threaded holes**, ensure compatibility with a wide range of rigging systems and screen formats.
