HFL1000-3.9-Mag

HANGING BAR FOR MAGIC SERIES P3.91 1000MM LED PANEL

1000mm heavy duty hanging bar for **Magic Series** LED panels. Engineered for strength and precision, it provides secure overhead support for modular LED cabinets and can also be used as a ground support structure with the addition of compatible feet. The bar features **two M16 hanging rings** and **four M16 ground feet mounts**, allowing it to transition seamlessly between suspended and floor-mounted configurations. Its precisely engineered mounting points, including **M6 and M10 threaded holes**, ensure compatibility with a wide range of rigging systems and screen formats.
