SLAB

PROFESSIONAL MIDI CONTROLLER FOR SERATO STUDIO, DJ PERFORMANCE, AND BEAT-MAKING

SLAB

AlphaTheta, in partnership with Serato, introduces SLAB—the first MIDI hardware controller designed specifically for Serato Studio.

Serato Studio is a powerful DAW for beat-making, offering producers and DJs everything needed to create professional-quality beats and remixes through a modern, sample-based workflow: simplified sampling, stem separation, drum sequencing, virtual instruments, audio tracks, effects, and exclusive sound packs.

SLAB enhances Serato Studio’s creative potential and unlocks the full version of the software at no extra cost when connected. Its layout prioritizes intuitive control with carefully selected functions and a streamlined design, enabling smooth transitions from production to live performance.

While optimized for Serato Studio, SLAB also supports Serato Sample, Serato DJ Pro, and other DAWs via generic MIDI mode. Whether you’re a beginner or an experienced beat-maker, SLAB delivers exceptional flexibility and creative power from the start.

HIGHLIGHTS

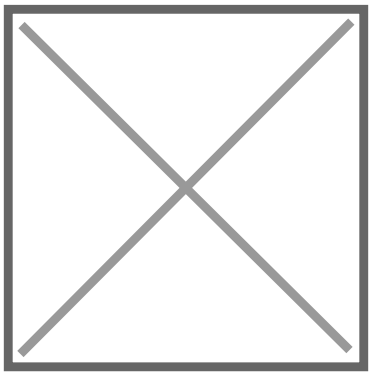

OPTIMISED FOR THE CREATIVE WORKFLOW OF SERATO STUDIO

The **Transport section** and **Focus Control** form the backbone of your production workflow. Think of SLAB's transport section as the command center for your creative process: it combines essential functions like **play**, **stop**, **recording**, and **scrubbing**, plus a versatile multi-function dial for fast and accurate navigation.

The standout feature? **Focus Control**, enabling you to manipulate third-party plugins—virtual instruments and effects—directly from SLAB, keeping your creative flow uninterrupted.

OLED DISPLAY AND TOUCH-SENSITIVE ENCODERS FOR DIRECT CONTROL

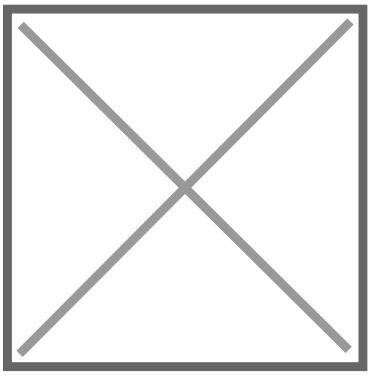

The OLED display at the top of SLAB provides real-time information on integration status and parameter values, ensuring exceptional clarity even in low-light studio environments. Touch-sensitive encoders deliver fast, accurate adjustments for a seamless and professional workflow.

MULTICOLOR LED PADS FOR INTUITIVE, INSTRUMENT-LIKE PERFORMANCE

SLAB captures every nuance of your expressive play. Its **16 Performance Pads** are highly sensitive and responsive, supporting **velocity** and **aftertouch** for dynamic, natural control. With a simple press of the four dedicated buttons above the pads, you can switch between operational modes, including **Pad FX**, where four types of effects are vertically assigned to the pads and up to four can be layered simultaneously. This lets you apply effects directly during production and hear changes in real time, expanding your creative possibilities.

PRECISE CONTROL WITH STEMS LEVEL

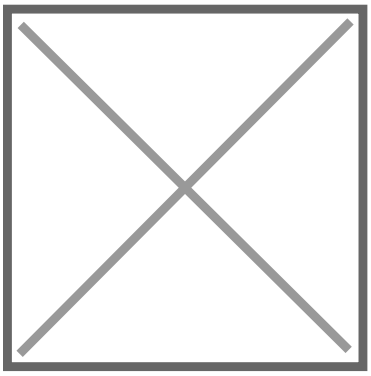

When using SLAB with Serato-compatible software—**Studio**, **Sample**, and **DJ Pro**—you can fine-tune the volume of individual elements within a track, such as **vocals**, **melody**, **drums**, and **bass**, using the **Stems Level** feature. Previously, adjusting these levels required separate tracks; now, SLAB's four touch-sensitive encoders let you do it directly from the hardware. This direct control is also a game-changer for DJ performances with Serato DJ Pro, enabling advanced combinations of EQ adjustments and stem manipulation.

SEAMLESS INTEGRATION WITH SERATO APPLICATIONS FOR ANY PRODUCTION SETUP

SLAB goes beyond Serato Studio: it also supports **Serato Sample** and **Serato DJ Pro**. With its flexible MIDI mode, you can connect your favorite DAW and take advantage of Serato Sample's high-quality sampler for an even smoother and more creative workflow.

PRODUCT DETAILS

KEY FEATURES

- Full Serato Studio licence included.
- Multi-Software Compatibility.
- Streamlined, Intuitive Workflow.
- Advanced Stems and FX Control.
- Designed for both production and performance.
- Compact, lightweight and portable.
- Full MIDI customization.

SPECIFICATIONS

Power Requirements	DC 5V
Power Consuption	500 mA
Tolerable Operating Temperature	+5 °C – +35 °C (+41 °F – +95 °F)
Tolerable Operating Humidity	5 % – 85 % (no condensation)
Input/Output Terminals	1x USB Type-C port
Compatible Software	Serato Studio / Serato Sample (license needed) / Serato DJ (Official Serato Accessory supported)
Maximum Dimensions (W x D x H)	284,3 × 209 × 44,6 mm / 11.19" × 8.23" × 1.76" in.
Weight	1.0 kg / 2.2 lbs
