ZOMO FLIGHTCASE RANE ONE NSE 030103368

030103368

The Zomo Flightcase Rane ONE Case was made to fit the Rane One DJ controller. Zomo extends with the Flightcase Rane ONE in the noble NSE Edition the product portfolio with an additional flightcase. This flightcase was manufactured to master the challenging DJ everyday life undamaged and inspires with its extremely robust workmanship.

The Rane equipment case in the dark black NSE (Night Style Edition) not only offers incredibly professional quality, but also inspires with an up-to-date look - certainly an eye catcher! To prevent the DJ controller from slipping, the One DJ Case is equipped with an excellent inner padding, which reliably protects the equipment from bumps, scratches or external negative influences.

Cigarette burns, heat as well as abrasion, cannot harm the Rane ONE flight case, thanks to the thick, laminated 9mm plywood. Attractive as well as appealing design details are provided by the extra wide, black painted aluminum profiles and extra stable ball corners, which give the equipment flight case a very high stability.

Butterfly snap locks hold the cover securely in place and make it easy to open and lock. For stronger security against theft all NSE Equipment Flightcases can be locked with an optional lock.Zomo Equipmentcases are completely tour-ready and put away all tour-alldays undamaged.
