COBALT CHROME TELECASTER® PICKUP SET

Voiced by tone guru, Tim Shaw, Cobalt Chrome utilizes the perfect magnetic combination to unlock your Telecasters full tonal potential. The Cobalt Chrome Telecaster pickups use our own proprietary blend of a FeCrCo magnet that bring an added snap and attitude to your Telecaster.

Voiced so each position contains a unique musical fingerprint with transparency and bite. The distinctive-looking chrome-ringed cover acts as a shield to help eliminate 60-cycle hum, making these pickups a remarkably true and quiet single-coil option while still offering the twang that a Telecaster is known for.
