ZOMO FLIGHTCASE P-DDJ-FLX4 PLUS NSE

0030103426

The Zomo P-DDJ-FLX4 Plus NSE is a flightcase especially for the Pioneer DDJ-FLX4 DJ controller and impresses with many great details. The P-DDJ-FLX4 Plus NSE adds another equipment case to the popular NSE series (= Night Style Edition). This stylish equipment flight case is extremely durable to withstand the rigors of DJ use without damage.

The particularly strong, black-painted aluminum profiles and massive ball corners, which give the flight case maximum stability, provide for appealing and noble accents. The outstanding interior padding of the P-DDJ-FLX4 Plus NSE guarantees a safe protection of the Pioneer DJ controller against scratches, bumps or external damages.

Thanks to the high quality laminated 9mm plywood, the P-DDJ-FLX4 Plus NSE equipment case is extremely scratch and shock resistant, making it impervious to cigarette burns, heat or abrasion. Manufactured for the hardest stage use, the Zomo equipment cases are of course tour-ready.

The front bar can be removed quickly and easily before your session. So you have access to the inputs of the controller even if your DJ Gear stays in the DJ Case. We recommend the optional Zomo EA-1 ergonomic adapter to connect your DJ headphones even easier to the DJ mixer.

The stylish, classic design in the deep black NSE (Night Style Edition) completes the concept of the Zomo Flightcase besides the incredible professional quality in terms of design. The ingenious Butterfly snap locks allow easy unlocking and locking and guarantee a secure fit of the cover. All NSE equipment cases are also lockable with an optional padlock.
