FPR-TR300B

3M PRE-RIG BLACK TRUSS FPR TR, COMPATIBLE WITH FPR CART SYSTEM (F70PRT004)

FPR TRUSS is an innovative element that makes it easy to assemble lighting systems and move them around a stage, mounting or removing them without the need to dismantle all the luminaires. FPR TRUSS offers a completely open bottom side, facilitating the mounting of moving heads and LED screens. Its lower center tube and extendable legs (adjustable from 1.2 to 1.4 m) allow for greater flexibility in moving equipment. Adjustable connectors allow for angular positioning of trusses.
