MH-75BT

ADJUSTABLE STEREO HEADPHONES WITH "BT AUDIO STREAMING" FUNCTION AND AUDIO PLAYER

MH-75BT

The MH-75BT headphones, thanks to the integrated "BT Audio Streaming" function, are ideal both for listening to music and for managing telephone calls from remote devices such as tablets and smartphones.

The MH-75BT headphones can also work as an audio player thanks to the possibility of inserting a micro SD Card into the appropriate slot.

The MH-75BT headphones have a built-in microphone and buttons with which you can accept or end a phone call.

The buttons can also be used to adjust the volume of a song or to switch to listening to another song.

The earcups, made of soft material, and the adjustability of the headphones ensure excellent comfort and fit respectively.

The integrated "BT Audio Streaming" function allows wireless use of the MH-75BT headphones by pairing with remote devices such as smartphones or tablets.

Using the supplied cable and Jack adapter, the headphones can be connected to any audio device that has a dedicated headphone output (PHONES).

The quality, versatility, design and excellent quality/price ratio are the characteristics that make the MH-75BT headphones a product that meets all needs.
