

RMX-IGNITE

PROFESSIONAL DIGITAL 3-BAND EFFECTS SYSTEM WITH 96 KHZ/64-BIT DSP

Ready to take your performances to new heights? Meet the RMX-IGNITE, the next-generation effector from AlphaTheta designed to spark your creativity. More than a decade after the launch of the RMX-1000 – the model released in 2012 that's still highly respected by top DJs worldwide – this completely renewed effector combines dynamic sound-shaping control with advanced effects to enable new levels of live performance.

Create visually and sonically striking performances with the RMX-IGNITE by using the levers and large knobs to intuitively control its array of effects. Whether you're playing in a club or on a live stream or video, you can captivate your audience by uniting sound and motion. It's easy to make live remixes with the enhanced sampler section and you can add groove and expression to your samples with the new Groove Roll feature. And, with the latest DSP and high-grade audio converters, the unit delivers professional-level sound quality.

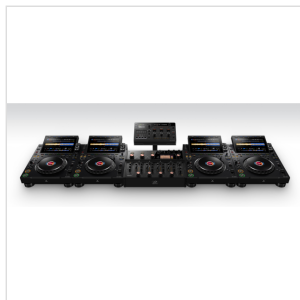

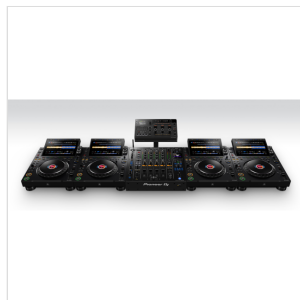

The name RMX-IGNITE represents sparking creativity and opening new possibilities for DJs to express themselves. Add this effector to your setup and you can show your individuality in live performances that are unmistakably yours, fusing expressive sound control with energetic movements.

*Please make sure to update the product to the latest firmware before use.

HIGHLIGHTS

3-BAND FX SECTION: ADVANCED AND CREATIVE CONTROL

The 3-band independent system allows you to apply different effects to bass, mid and treble, combining Lever FX (immediate and dramatic interventions) and Isolate FX (smooth and dynamic control).

This combination gives the DJ an unparalleled level of expressiveness and customisation.

ADVANCED SAMPLER WITH 20 INTERNAL SAMPLES AND USER SUPPORT

The sampler section integrates 20 Loopmasters samples, sample loading via USB or PRO DJ LINK, robust pads with white LEDs, Overdub, Roll and Groove Roll for complex and expressive buildups.
