

MIDI MAESTRO

MIDI FOOT CONTROLLER

The MIDI Maestro puts the full power of MIDI into a package that's easy for anyone to use. It's the first MIDI controller that lets musicians skip on reading lengthy MIDI manuals and instead just jump straight into playing.

But the MIDI Maestro's not just easy to use, it has incredible depth for those willing to explore its more advanced features. With predefined in app commands, easy customization, and presets for popular gear, the MIDI Maestro is the premier choice in MIDI controllers for all your MIDI enabled gear.

There's no stress about pressing the wrong button thanks to the built in displays. And with 10 dynamic pages per preset as well as the ability to send up to six MIDI commands in a single press you won't find yourself limited.
