

**AIR 12 WHITE****12" TWO-WAY PASSIVE SPEAKER WITH COAXIAL  
WAVEGUIDE AND FIBERGLASS CABINET (WHITE)**

Air 12 is a 12" + 1" coaxial speaker with a rigid, lightweight fiberglass cabinet, ideal for premium installations. It delivers detailed, linear sound, a wide 80°x80° coverage, and a peak output of 130 dB, with extended response from 75 Hz to 20 kHz and 98 dB sensitivity (1W/1m). The internal crossover ensures smooth transitions, while the compact design and custom finishes make it perfect for lounge bars, restaurants, clubs, and upscale residential spaces. The box also includes a low-profile flush-mount bracket with a fixed 30° downward tilt and Phoenix connector with Link Out for easy multi-speaker setups.

## PRODUCT DETAILS

### KEY FEATURES

Compact two-way 12" coaxial design: the 12" coaxial driver with integrated 1" tweeter ensures a point source of sound, providing a consistent and linear response throughout the frequency range.

Optimized 80° x 80° dispersion: the wide angle of coverage allows even sound distribution in rooms of various sizes, increasing clarity even in acoustically complex situations.

Ideal for fixed installations in upscale environments: with its elegant and discreet design, Air 12 is perfect for bars, restaurants, clubs, lounges, and even upscale residential settings.

Wall bracket included: the system comes with flush-mount bracket for easy and secure installations.
