SET-STAGE TUBE 360

SET OF 8 STAGE TUBE WITH CHARGING CASE

SET-STAGE TUBE 360

The **Stage Tube 360** stands out as a premium solution for lighting professionals who demand flexibility, durability, and high-quality performance. With a **40W output** provided by 5-in-1 LEDs (RGBWA), it delivers excellent color rendering and smooth mixing, covering the full color spectrum.

This fixture is part of a **set of 8 devices**, all housed in a **flight case** with an integrated charging function. Recharging is simple: just place the tubes inside the flight case, connect it to power via the internal connectors, and then plug the external flight case power connector into a mains outlet.

The built-in **9600mAh rechargeable battery** provides up to **12 hours of continuous operation**, eliminating the need for a constant power source. Integration with **wireless DMX** and app-based control ensures maximum freedom in setup and operation.

Wireless pixel control adds another layer of creativity, allowing **precise LED mapping** for advanced and customized effects.

The **IP65-rated housing** guarantees protection against water and dust, making the fixture suitable for both indoor and outdoor installations. Its lightweight design simplifies transport and installation without compromising overall robustness.

In summary, the **Stage Tube 360** is a professional-grade fixture that combines portability, advanced control options, and rugged durability, making it the ideal choice for demanding and creative lighting applications.

HIGHLIGHTS

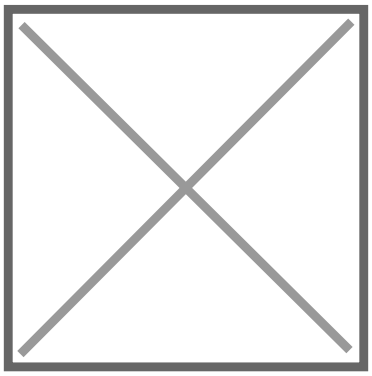

ULTIMATE PORTABILITY AND ALL-WEATHER DURABILITY

The Stage Tube 360 features a lightweight IP65-rated enclosure, making it ideal for both indoor and outdoor installations. Its compact design allows for effortless transport and quick setup, while the robust housing protects against dust and water, ensuring reliable performance even in demanding environments. This combination of portability and durability makes it perfect for touring, live events, and architectural applications.

ADVANCED WIRELESS CONTROL AND PIXEL MAPPING

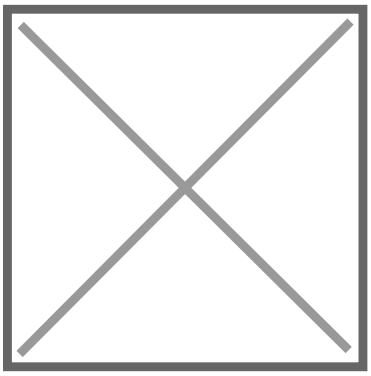

Equipped with wireless DMX support, Wi-Fi connectivity, and a dedicated app, the Stage Tube 360 offers maximum flexibility in lighting design. The integrated pixel control allows for precise LED mapping across multiple groups, enabling dynamic effects and intricate visuals that can be fully customized. This level of control empowers lighting professionals to create highly creative and visually striking setups with minimal effort.

SET OF 8 STAGE TUBE WITH CHARGING CASE

LONG-LASTING BATTERY AND VERSATILE OPERATION

With a built-in 9600mAh rechargeable battery, the Stage Tube 360 delivers up to 12 hours of continuous operation without the need for a permanent power source. Coupled with multiple operational modes including Master/Slave, Standalone, DMX, IR Remote, and app control, this fixture provides unmatched versatility for various event types. Intelligent battery management and quick recharge ensure that lighting professionals can rely on consistent performance throughout long shows or installations.

PRODUCT DETAILS

KEY FEATURES

- Lightweight and durable with an IP65-rated enclosure suitable for both indoor and outdoor installations and easy to transport and mount.
- Full DMX compatibility with addressing range from 001 to 512 and channel modes from 4 to 160 for seamless integration into any lighting setup.
- Advanced pixel control managing up to 6 groups (3 front and 3 rear) with individually controllable RGBWA segments for dynamic effects and pixel mapping.
- High-resolution dimming from 0 to 100 percent with 4 selectable curves optimized for theatrical, broadcast, and live performance environments.
- Strobe and color effects with variable-frequency strobe from ultra-slow to high-speed, manual RGBWA control, full HSI color management, and integrated virtual Lee Filters library.
- Built-in presets and macros with 27 static color presets and 69 FX macros plus Auto mode with adjustable parameters for quick programming-free setups.
- Audio synchronization with Sound mode, adjustable sensitivity, and 4 profiles for music-synced lighting effects.
- Versatile wireless control supporting wireless DMX color-coded ID and CRMX W-DMX, Wi-Fi with dedicated LED LAMP app, and included IR remote.
- Integrated rechargeable battery providing up to 12 hours of continuous operation, 7-hour charging time, intelligent power management, and customizable runtime profiles.
- Intuitive interface and safe operation with touchscreen, key lock, adjustable backlight timeout, wireless status LEDs, and advanced thermal management to protect LEDs and electronics.
- Wi-Fi control system compatible with Android and iOS via the LED LAMP App.

SPECIFICATIONS

Input Voltage	AC100V-240V 50/60Hz
Power Consumption	40 W

Via Enzo Ferrari 10
62017 Porto Recanati (MC), Italy
info@frenexport.it

SET-STAGE TUBE 360

SET OF 8 STAGE TUBE WITH CHARGING CASE

Battery	Integrated 9600mAh lithium electronic rechargeable battery
Battery Runtime	Up to 12 hours (depending on "Run Time" settings)
Charging Time	7 hours
Light Source	One strip of 192 total LEDs, 0.2W each
LED Life Span	50,000 hours
Display	OLED display with touchscreen controls
Color Rendering Index (CRI)	? 80
Color Range	Nearly unlimited color mixing / Millions of color combinations
Color Temperature	30 selectable color temperatures (2700°K - 12000°K)
Dimmer/Strobe	0%-100% (0-255) dimmer, 0-30 Hz strobe with variable speed
Ambient Temperature	-10° - 40°C (14° - 104°F)
DMX Channels	Multiple modes
Control Mode	Manual, Auto, IR, Wi-Fi, Wireless DMX 2.4GHz, RDM, Master/Slave, Sound
Positioning / Mounting	Vertical positioning (with floor support base), suitable for truss or overhead installation (with clamps)
Recharge Input	DC barrel jack connector
IP Grade	IP65
Cooling	Natural cooling, silent operation
Material	Aluminum Alloy
Color	Black
Fixture Dimensions (Ø x H)	55 x 1437 mm (2.16 x 56.57 in.)
Product Weight	2.5 kg (5.51 lbs.)

Stage Tube 360 Flight Case

Power In Connection	PowerCon
Flight Case Dimensions (WxDxH)	1525 x 470 x 245 mm
