

SP-C120

DIGITAL PIANO WITH 88 GRADED HAMMER ACTION KEYS

The Medeli SP-C120 is a sleek and compact stage digital piano, designed for both live performances and home use.

With its 88 graded keys and powerful built-in 25-watt stereo speakers, this piano offers an authentic and dynamic playing experience.

It offers a range of high-quality sounds, making it suitable for a variety of musical genres.

The SP-C120 digital piano also functions as an audio interface, allowing you to easily record music using any DAW such as Cubase, Logic, or Ableton via a simple USB connection.

Recorded audio can be played directly on the piano, ensuring seamless integration into your music production workflow.

The SP-C120 digital piano's keyboard features a compact design, graded key weight distribution, and a matte surface across all keys, while offering an authentic and expressive playing experience reminiscent of an acoustic piano.

The compact design, portability and versatility of this digital piano allow it to be used on stage for live performances, or at home where, together with the ST450 wooden stand (Optional), it can also be considered a small and elegant furnishing accessory.

HIGHLIGHTS

KEYBOARD

The 88-key Graded Action Compact (GAC) full sized, touch-sensitive weighted keyboard helps build proper finger strength and achieve dynamic musical expression.

SOUNDS

25 onboard Sounds include pianos, organs, and more, giving you the freedom to choose the right sound for the music you play. The celebrated 'German Grand' piano sound delivers a rich and detailed concert grand experience, and its natural timbre is well suited for any genre.

SPEAKERS

The powerful built-in stereo sound system with 2 x 25W speakers allows you to enjoy full, crystal-clear sound as if you were playing a classical piano.

HEADPHONES

Dual headphone jacks allow for private practice, duets, or lessons with a partner.

DESIGN

Matching stands, pedals, and benches can be added, turning your SP-C120 into a slim, modern furniture style instrument that complements the décor of any room.

CONNECTIVITY

The built-in USB MIDI/AUDIO interface means with only one cable your SP-C120 can connect with PCs or smart devices to interact with various learning or creative apps. Record to your software and listen back through the instrument's speakers or headphones. A dedicated Line Output connector lets you easily connect your SP-C120 to external amplification or studio equipment for live performances or recording.
