TEX-MEX™ HOT STRATOCASTER® PICKUPS SET, 0992418000

Building on the classic sparkle and bite of Tex-Mex™ Strat® pickups, this overwound set adds just the right amount of extra spice to your sound. With a slight increase in the number of turns, you'll get more output, extra punch in the mids, and a touch more growl—without losing the clarity that makes Tex-Mex™ pickups a player favorite. Perfect for pushing your amp into overdrive while still keeping that unmistakable Stratocaster® chime.
