

## VORTEX 15A 15" COAXIAL ACTIVE FULL-RANGE SPEAKER WITH DSP

Vortex is a range active moulded speaker cabinets. Featuring high performance 1400W (peak) power amplifiers, and a unique coaxial speaker configuration, the VORTEX series are designed to perform and exceed your expectations and requirements for lightweight, portable PA cabinets.

The Vortex series feature set is considerable with Bluetooth input input (with TWS), built in DSP, dual 35mm top hat sockets, 3 input channels, multiple M10 flying points, multiple carry handles and much more.

# VORTEX 15A 15" COAXIAL ACTIVE FULL-RANGE SPEAKER WITH DSP

## HIGHLIGHTS

### 1400W 2-WAY AMPLIFIER

The Vortex series features 1400W peak Class-D amplifiers, fully controlled by DSP. The processing, thanks to thermal, overload and short-circuit protection systems, guarantees the best performance and maximum stability under any conditions.

### 24-BIT DSP

The 24-bit DSP allows you to select 5 operating modes (Music, Live, Dj, Speech, Monitor) and adjust the frequency response to suit the environment thanks to the 3-band EQ. The limiter guarantees maximum safety at all times to avoid overloading that could damage the transducers. It is also possible to set delay times, which are extremely useful for aligning the audio system when using many speakers placed at a distance from each other.
