

V218SA**2X18" - 2400W RMS ACTIVE LINE ARRAY SUBWOOFER**

The V218SA subwoofer delivers powerful, deep bass to your line array system. While it's typically added to reinforce the low end, its impact is so present and versatile that it becomes the main subwoofer for the entire system, significantly enhancing the overall reinforcement and characterization of the sound.

The V218SA is equipped with a 2400W RMS Class D amplifier and a DSP for system optimization.

V218SA

2X18" - 2400W RMS ACTIVE LINE ARRAY SUBWOOFER
