

# MAONOCASTER E2 Gen2 PODCASTING CONSOLE MAONOCASTER E2 GEN2

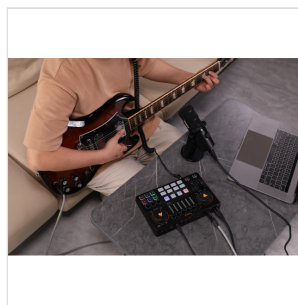

The Maonocaster E2 Gen2 is an updated version of the popular MAONO consoles for podcasting and audio streaming.

This console features two XLR mic inputs with dedicated controls for two-person recording, a direct monitoring switch, and two mute buttons to further enhance the user experience and simplify workflows.

The Maonocaster E2 Gen2 supports Bluetooth, AUX input, and musical instruments for background music.

It also includes eight programmable soundpads to enhance content creativity.

Whether you're an experienced podcaster, streamer, musician, or content creator exploring the world of audio, the Maonocaster E2 Gen2 is your ideal companion.

## HIGHLIGHTS

### 2 XLR MICROPHONE INPUTS.

The Maonocaster E2 Gen2 features two premium, low-noise preamps with 60 dB of gain, delivering rich, crystal-clear sound for dynamic and condenser microphones. The Maonocaster E2 Gen2 also features 48V phantom power for condenser microphones.

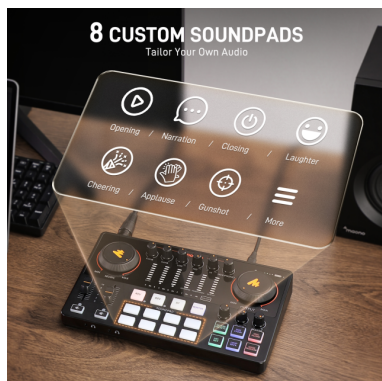

## NOISE REDUCTION

High-end intelligent noise reduction technology eliminates unwanted sounds, such as fan noise, to ensure flawless podcast recordings.

### 8 CUSTOM SOUND EFFECTS

The Maonocaster E2 Gen2 allows the user to add 8 custom sound effects via the 8 sound effect buttons on the panel. This makes it perfect for podcasters and streamers who can upload their favorite intro music, original sound clips, or custom effects to engage their audience. Each button supports up to 20 seconds of recording with adjustable volume.

### SEPARATE FUNCTION CONTROLS

The Maonocaster E2 Gen2 is equipped with separate controls for every existing function in order to make adjustments for increasingly advanced and immersive podcasts.

### HIGH COMPATIBILITY WITH EXTERNAL DEVICES.

The Maonocaster E2 Gen2 supports connection to computers, smartphones, and tablets and is compatible with Mac and Windows systems, offering complete connectivity flexibility with plug-and-play functionality for easy setup. You can then easily import background music via Bluetooth or connect external devices via the AUX-IN/USB-C inputs. You can also stream to your phones via the STREAM OUT or USB-C ports.
