SPST-243-BK

SPEAKER/LIGHTING STAND WITH SQUARE STEEL BASE

SPST-243-BK

The SPST-243-BK is a sturdy and versatile professional stand, designed to securely hold speakers and lighting fixtures.

Made entirely of high quality steel, it ensures high stability even with heavy loads of up to 25 kg, while maintaining an elegant and compact design.

The flat steel base allows it to be used in small spaces or on stages where traditional tripods are not possible, while ensuring a stable and secure base.

The adjustable height, from 153 cm to 243 cm, allows for precise adaptation to different installation needs.

Thanks to the 35 mm tube and integrated M20 thread, the stand is compatible with a wide range of speakers and lighting accessories, making it ideal for live performances, theater, conferences, corporate events, or fixed installations.

The height adjustment system with tightening screw and safety pin offers professional reliability, while The height adjustment system with tightening screw and safety pin offers professional reliability, while the integrated handle in the base and the two-piece design with dedicated bags make it easy to transport and store.

In summary, the SPST-243-BK stand represents a solid, practical and durable solution for those looking for a professional-level multifunctional stand with high build quality.
