SWT-24

2.4GHZ WIRELESS SYSTEM FOR GUITAR/BASS

PRODUCT DETAILS

KEY FEATURES

- 2.4 GHz wireless system for guitar and bass
- Stable, interference-free, hi quality transmission in a range of 50 meters
- Low latency and dynamic tone
- Fits any instruments with its adjustable angle and slim profile
- Long lasting lithium batteries (up to 8 hrs)
- Use up to 4 sets simultaneously and use same TX with multiple RX
- Auto Sleep mode saves your battery life
- Y-style USB cable for charging TX and RX at the same time

SPECIFICATIONS

Operating band	2.4 GHz
THD+Noise	<0.05%
SNR	90dB
Sample rate	48K/24bit
Latency	<8ms
Frequency response	20Hz-20KHz
Range	up to 50 meters (indoor)
Battery life	up to 8hrs
Channels	4
