CDJ-1500X

ALPHATETA PROFESSIONAL COMPACT DJ MULTI PLAYER (BLACK)

CDJ-1500X

The **CDJ-1500X** is a professional media player engineered to bring the renowned **AlphaTheta** performance experience to any venue, delivering flagship-level capabilities in an exceptionally compact footprint.

With built-in Wi-Fi connectivity, cloud access and music streaming are seamlessly integrated. Thanks to **rekordbox CloudDirectPlay** and compatibility with **Apple Music**, **Beatport Streaming**, and **TIDAL**, your entire music library is always within easy reach. Instant **NFC login** lets you load your personal settings and playlists in seconds by simply holding your smartphone near the player.

At the heart of the interface is the **10.1-inch capacitive touchscreen**—the same display featured on the flagship **CDJ-3000X**—allowing you to browse up to **15 tracks at once** while monitoring song structure through detailed waveform previews, complete with **vocal indicators** and **BPM change markers**. The **Playlist Edit** feature adds even greater flexibility, enabling you to reorganize playlists directly on the player without interrupting your performance.

Innovation meets audience engagement with the new **CoBeat** service. For the first time, the crowd can actively take part in the performance by voting for tracks or submitting song requests via a simple QR code, with requests displayed in real time on the **CDJ-1500X** screen. Combining professional performance, advanced connectivity, and outstanding value, the **CDJ-1500X** is the ideal choice for DJs who demand precision, reliability, and flagship features in installations where space is at a premium.

ALPHATETA PROFESSIONAL COMPACT DJ MULTI PLAYER (BLACK)

HIGHLIGHTS

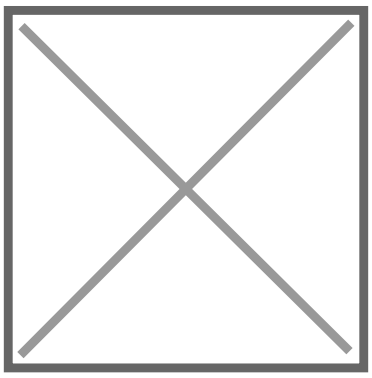

10.1-INCH TOUCHSCREEN DISPLAY

The CDJ-1500X includes the 10.1- inch capacitive touchscreen from the flagship CDJ-3000X. The browse screen displays up to 15 tracks at once, and waveform previews help you understand the music’s structure at a glance.

COMPACT DESIGN FITS IN SMALLER DJ BOOTHS

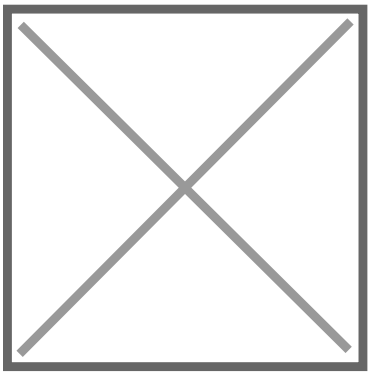

The CDJ-1500X is ideal for bars, small clubs, and home setups. While it includes many key features of the flagship CDJ-3000X, it has a significantly smaller footprint, making it easy to fit the unit into tighter spaces and combine it with turntables and other gear to create a custom setup.

ALPHATETA PROFESSIONAL COMPACT DJ MULTI PLAYER (BLACK)

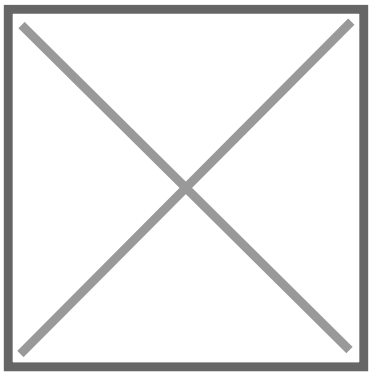

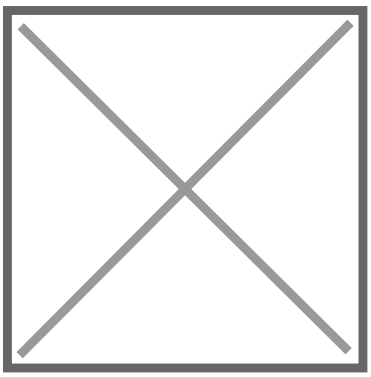

ENHANCED TRACK VISUALIZATION

The main waveform display includes visual indicators for vocal positions, BPM change points, and phrase structures. Playlist Edit enables you to rearrange tracks within playlists directly on the CDJ and there’s a choice of dark and light display modes.

COBEAT SERVICE

The CDJ-1500X is the first AlphaTheta multi player that’s compatible with the CoBeat service, which enables people on the dancefloor to use their phone to scan a QR code and request songs from a catalog you’ve prepared in advance. The requests are gathered on the screen of the multi player.

CUSTOMIZABLE LOOK

2 USB ports makes it easy to connect USB drives. You can choose from 12 colors for the LED lighting and, thanks to the screw holes on the sides of the multi player, you can add optional panels to customize the look of your CDJs.
