

AKX10S

ARRANGER/WORKSTATION KEYBOARD WITH 61 TOUCH RESPONSE KEYS

AKX10S

The AKX10S is a digital workstation from the Arranger Pro series equipped with 61 touch-sensitive keys, a 7" touch screen display and a sound system consisting of 2 x 25W speakers and 2 x 15W speakers.

The AKX10S takes the powerful performance concept of the AKX10 to a new level of musical expression.

With the new PTK III keyboard and an updated sound engine, this workstation offers incredible playability and realism.

The 7" TFT touchscreen ensures quick and intuitive navigation, while the extensive DSP library and Creative Expression voices deliver astonishing depth and detail in every note.

A built-in 4-way speaker system delivers full, crystal-clear sound.

Optimized button illumination and joystick give artists a visual and tactile connection to their sound.

With generous expansion memory, Bluetooth MIDI and Audio, comprehensive recording tools and real-time style control, the AKX10S is designed for performing whether on stage, in the studio or at home.
