

B-2 PLUS DIGITAL WIRELESS SYSTEM FOR GUITAR (2.4GHZ ISM WORLDWIDE)

The NUX B-2 PLUS is a pocket-size 2.4GHz wireless system that offers guitar players an easy solution to go wireless. Featuring the latest NUX wireless transmission algorithm, B-2 PLUS secures a **better connection in a noisy RF environment**.

With the newly-added auto-off function, you'll never have to worry about leaving the system on and draining out the batteries. UX B-2 PLUS offers **32bit/44.1KHz high definition audio quality** and has a comparable operating range of 60 feet (line-of-site) with **less than 5ms of latency**.

You can also take advantage of its four optional channels when gigging with your friends: up to four B-2 PLUS can be used at the same time in one space.
