INSTRUMENT CABLE NEUTRIK® 1/4" JACK MONO - NEUTRIK® 1/4" JACK MONO / 2MT

It's the instrument cable series that offers musicians the most unexpected performance. Its low capacity and the absolute absence of distortion caused by radio interference or electromagnetic fields, as well as its robust jacket make this cable an ideal connecting lead. It features sturdy PVC jacket, double screen covering a low impedance conductor with a 0.34mm² section and NEUTRIK® 1/4", 2 poles Jack connectors.
