

EJ81

IRISH BOUZOUKI STRINGS

Phosphor Bronze was introduced to string making by D'Addario in 1974 and has become synonymous with warm, bright, and well balanced acoustic tone. D'Addario Phosphor Bronze strings are precision wound with corrosion resistant phosphor bronze onto a carefully drawn, hexagonally shaped, high carbon steel core. The result is long lasting, bright sounding tone with excellent intonation. D'Addario's J81 strings are designed for use with Irish bouzoukis of various scales. The unwound strings are made from plain steel and the wound strings are phosphor bronze, acclaimed worldwide for its great, long-lasting tone.

PRODUCT DETAILS

KEY FEATURES

Plain Steel + Phosphore Bronze

Extra-bright tone mixed with deep and projecting bottom end

Environmentally friendly, corrosion resistant packaging for strings that are always fresh

Made in the U.S.A. for the highest quality and performance

String Gauges: Plain Steel .011, .011, .016, .016, Phosphor Bronze Wound .028, .028, .040, .040
