

ML850

DUAL STREAM NFC BLUETOOTH HEADPHONE BLACK FINISHING

Max comfort for mobile use with TAKSTAR ML850. One of the latest new model, ML850 is a wireless dual stream headphone capable to be connected simultaneously to two different devices, very convenient feature if you are listening music and you want to receive phone calls from your smartphone. The wireless connection has been implemented through bluetooth technology and NFC is supported. Thanks to the generous installed lithium batteries ML850 allow more than 25 hours of continuous playback. Fast Charging function allow over 90 minutes of operation with only 10 minutes of charge.

Extraordinary sound performances in music playback: the high grade 40mm driver guarantee deep and clear basses, wide dynamic range and extended frequency response. Digital audio conversion is operated by Qualcomm aptX technology allowing accuracy and richness of details in sound playback. The headphone mount an integrated omnidirectional microphone for max voice intelligibility. Last but not least, its full ergonomic design allow the user a great comfort experience even when use continuously for hours without any stress.

PRODUCT DETAILS

KEY FEATURES

Designed with Bluetooth®4.2, reliable transmission, high anti-interference capability

Supporting aptX® and AAC coding and decoding technology, boosting bluetooth transmission sound quality

Supporting NFC to avoid matching or code setting, easy connection

Supporting connecting with two equipments simultaneously for switching playing equipment and answer the call

10 minutes of charging lasts for 90 minutes of listening

Low power consumption, 25h music operation time

Soft protein leather ear pad for comfortable wearing in a long time

SPECIFICATIONS

Unit Diameter	Ø40mm
Frequency Response	20Hz-20kHz
Sensitivity	101±3dB at 1KHzinput 179mV(1mW)
Unit Impedance	32±15%?
Max Power	30mW
Rated Power	10mW
S/N Ratio	>82dB
Sample Rate	96KHz/24bit
THD	<0.5% 1KHz
Microphone Sensitivity	-16±3dB at 1KHz
