

10TRIT

PACK OF 10 THREE-LAYERED WOOD PLECTRUMS

Pack of 10 special wood picks, with an accurate selection of materials combined to a high technical level of design. One african ebony layer is contained between two softer wood layers, giving to the plectrum more grip and endurance. Ideal for many musicians.

PRODUCT DETAILS

KEY FEATURES

1.5 mm layer of African Ebony has been laminated between two thin leaves of 0.5 mm thick African Sapele

Slightly lighter than pure Ebony and has more grip

For lead guitar playing
