## ZOMO P-XDJ-XZ NSE PLUS - FLIGHTCASE PIONEER XDJ-XZ

With the P-XDJ-XZ NSE Plus from Zomo you get a solid flightcase for the Pioneer XDJ-XZ Controller. Zomo completes with the P-XDJ-XZ NSE Plus in the stylish NSE (= Night Style Edition) the product range with a new flightcase. The stylish DJ Case is not only unbelievable resistant but also completes every DJ everyday life without any problems. In order to protect the DJ controller from damage, scratches or other negative influences, the XDJ-XZ equipment case is equipped with an excellent inner padding. Zomo equipment flightcases are guaranteed to be suitable for touring and can handle roughest stage applications. The robustly processed, laminated 9mm plywood makes the P-XDJ-XZ NSE Plus Equipment Case very insensitive to scratches and shocks. The especially strong, black lacquered aluminium profiles and very stable ball corners guarantee a high durability and provide for noble optical details. The helpful butterfly latches ensure an extremely tight fit of the lid and easy unlocking and locking. In addition, all NSE equipment cases are lockable with an optional lock for extended protection and are also visually impressive. The elegant design of the black NSE edition is stylish and definitely an eye-catcher. Even when the DJ Gear is still inside the case, the front panel can be removed quickly and easily before the gig. As a separate accessory we have the ingenious Zomo EA-1 angle adapter on offer. With this adapter you can plug in your headphones at the mixing desk more easily.
