

EJ26

PHOSPHOR BRONZE ACOUSTIC GUITAR STRINGS, CUSTOM LIGHT, 11-52

Phosphor Bronze was introduced to string making by D'Addario in 1974 and has become synonymous with warm, bright, and well balanced acoustic tone. D'Addario Phosphor Bronze strings are precision wound with corrosion resistant phosphor bronze onto a carefully drawn, hexagonally shaped, high carbon steel core. The result is long lasting, bright sounding tone with excellent intonation. Referred to as Custom Light, EJ26 strings are a D'Addario original hybrid gauge and a comfortable compromise for players who want the depth and projection of light gauge bottom strings, but slightly less tension on the high strings for easy bending.

PRODUCT DETAILS

KEY FEATURES

Custom Light, a D'Addario hybrid gauge, combining light gauge bottom strings with lighter top strings for easy bending

Preferred for its warm, bright, and well balanced acoustic tone

Environmentally friendly, corrosion resistant packaging for strings that are always fresh

Made in the U.S.A. for the highest quality and performance
