SQUARE 100PZ
100W MINI LED PROFILE SPOT LIGHT WITH ZOOM, BEAM SHAPING SHUTTERS & GOBO SLOT

Centolight SQUARE 100PZ is a professional LED Profile with adjustable beam from 15° to 30° via manual zoom and focus. It is designed for all those small and medium-sized installations where warm-white light (approx. 3,100K) is required, an adjustable light beam and the possibility of projecting gobos (e.g. shops, Showrooms, showcases, museums, auditoriums, etc.).

The light source is a 100W Edison® LED with CRI ?90 to allow excellent color rendering, especially in indoor venues.

The fixture is very compact and the die-cast aluminum housing increases the heat dissipation. The cooling system uses high precision fans in order to keep noise within 25dB @ 1m.

The 4 beam-shaping shutter system allows both radial and angled adjustment of the beam. The profile is equipped with a gobo holder (optional) compartment for glass or metallic gobo, as well as the front color-frame holder (included).

Zoom | RDM | Flicker Free | Contr. Fan | DMX-512 Control
