PANORAMA TREMOLO SYSTEM

The Panorama™ Tremolo system with pop-in tremolo arm dramatically increases the range of vibrato available, allowing for deep, Strat-style dives, in addition to classic Jazzmaster warble. Developed for the American Professional II Jazzmaster, this tremolo system will retrofit into most of the Jazzmaster models that Fender has created over the decades. Pair it with the American Pro Jazzmaster/Jaguar bridge assembly for the ultimate upgrade to your favorite Jazzmaster.

PRODUCT DETAILS

KEY FEATURES

Chrome Panorama Tremolo assembly

Pop-in tremolo arm with aged white tip

Includes mounting hardware

Fits most Fender Jazzmaster guitars

Bridge assembly part numbers: 7709942049 9.5" radius, 7712971049 7.25" radius

Weight: 907 gr (2 lbs)
