ROSIN FOR CELLO PROFI-LINE SERIES

Royal Oak is the company specialized in the production of vegetal resins, also suitable for use on stringed instruments. From the typical dark yellow and transparent with its excellent consistency, allows you to prepare the bow in such a way as to achieve a perfect friction on the strings of stringed instruments. Contained in elegant packaging, along with a soft cloth. Royal Oak Profi-Line Cello Rosin is designed for the frequent player. It is formulated for less frequent rosinning, greater yield, and a clear, pure tone. Because if it's less bow abrasion there is less string fouling. This rosin is all natural, non-allergenic, and engineered to be non-aggressive to bow and strings.
