

KF212

## 2X12"+1.7" COAXIAL FULL RANGE PASSIVE POINT SOURCE SPEAKER 8 ? (BLACK COLOR)

The **Domino-KF212** is a compact **full-range point source loudspeaker** designed for refined audio installations where **clarity**, **power**, and **architectural integration** must coexist seamlessly. Its **stainless steel enclosure** combines durability with an elegant, discreet profile suitable for both indoor and outdoor environments.

It delivers a rich **40 Hz – 19 kHz** frequency response with impressive low-frequency extension for its size, ensuring uniform sound distribution in **multi-zone systems** thanks to its **60° Vertical** and **90° Horizontal** coverage.

All Domino loudspeakers can be customized with any RAL color or finished in a variety of premium metallic finishes to further enhance their distinctive aesthetics. Furthermore, to meet specific design and installation requirements, dedicated solutions with IP65 marine-grade protection and versions suitable for recessed installation are offered.

### **HIGHLIGHTS**

---

#### **COMPACT FULL-RANGE SOLUTION**

Stainless steel speakers with plug and play capabilities that don't require presets and can be driven by any amplifier, perfect for applications with subwoofer restrictions.

#### **COMPATIBLE WITH ANY AMPLIFIER**

Featuring an onboard passive filter that automatically adjusts the frequency response and phase response of the speaker, any professional amplifier can be used to drive these speakers.

### CUSTOM COLORS AND PREMIUM FINISHES AVAILABLE UPON REQUEST

The Domino series is offered in a semi-matte **black** or an elegant **white** finish and can be customized to match any **RAL** code.

Premium **brushed** or **polished** stainless steel finishes give the products a chameleon-like ability to reflect surrounding surfaces and blend in with the background.

Also available in **24K gold**-plated for the most luxurious finish - ideal for prestigious design projects and upscale applications.

Domino loudspeakers are manufactured to achieve exacting standards and are subject to rigorous quality control system in Italy.

## PRODUCT DETAILS

### KEY FEATURES

- Impressive diminutive depth and lightweight form
- Compatible with any amplifier without dedicated presets
- Selectable impedance
- Wide horizontal and vertical coverage
- Dedicated accessories for wall-mounting included
- Suitable for home cinema applications thanks to high SPL and fixed 8? impedance (Domino-KFC26 model)

### SPECIFICATIONS

|                    |                                                                                                         |
|--------------------|---------------------------------------------------------------------------------------------------------|
| Type               | Full Range Point Source                                                                                 |
| Transducers        | 1x 12"+1.7" coaxial woofer + 1x 12" passive radiator                                                    |
| Frequency Response | 40 Hz - 19 kHz (-6 dB, with dedicated preset)                                                           |
| Max SPL            | 130 dB (peak, calculated using a signal with crest factor 4 [12dB] measured at 8 m then scaled at 1 m.) |
| Coverage           | V. 60°   H. 90°                                                                                         |
| Nominal Impedance  | 8 ?                                                                                                     |
| Power Handling     | 700 W                                                                                                   |
| Connectors         | 4-pin Euroblock                                                                                         |
| IP Rating          | IP64 (IP65 Rating with dedicated accessories)                                                           |
| Dimensions (WxHxD) | 330 x 655 x 200 mm (13 x 25.8 x 7.9 in.)                                                                |
