

ZPR2620v2

2-ZONE MIXER ZONING

The ZPR2620 2-Zone mixer is the only 1U installation mixer featuring Hill Audio's unique CascadeZone © system, which allows the 2nd output to act either just as a second master or as a second zone, with each output sporting comprehensive rear-panel configuration controls. 2 microphone inputs are complemented by 6 stereo inputs, out of which two can be switched to microphone sensitivity – which makes the ZPR2620V2 a unique blend between microphone mixer and stereo line mixer. Another Hill Audio innovation is the FOH input, providing a solution to venues with occasional live music events – allowing to feed the FOH system with an external balanced stereo input signal. The ZPR2620V2 is the default choice for a hospitality venues' background music control.
