D-PRIME-2 NSE - FLIGHTCASE FOR DENON PRIME-2

The Zomo Flightcase D-Prime-2 NSE Case is made to fit the Denon DJ Prime 2 DJ-Controller. The Flightcase D-Prime-2 NSE in the popular NSE (Night Style Edition) impresses with the deep black look. This flight case is very resistant to the strenuous tour use without problems to complete. The superior internal padding of the flightcase D-Prime-2 NSE provides safe protection of the Denon DJ controller from scratches, defects or other damages. Manufactured for the challenging everyday life on stage, the Zomo DJ Cases are of course suitable for touring. The flightcase D-Prime-2 NSE is resistant to abrasion and cigarette burns thanks to the robust, laminated 9mm plywood. Thanks to the extra strong, black painted aluminium profiles and the stable ball corners the Zomo Equipment Case offers a very high durability. Helpful butterfly catches hold the cover extremely secure and allow an easy opening and closing. For increased protection all NSE flightcases can be locked with an optional padlock and also optically the Denon DJ flightcase can convince completely. The modern design in the dark black NSE Edition is simply stylish and undoubtedly an eye-catcher. The front panel can be removed quickly and easily during your session. This gives you access to the connections of the DJ controller even when the gear is still in the case. As optional accessory we have the very comfortable Zomo EA-1 ergonomic adapter in our assortment. With this adapter it is possible to connect your DJ Headphones to the mixer more easy.
